2024 American Royal Animal Health Requirements

Health Requirements for All Exhibitors: The American Royal Animal Health Requirements may be stricter than those required by the Missouri Department of Agriculture, Division of Animal Health. In order to exhibit at the American Royal, you must adhere to the following requirements. **Please note:** Health Requirements are subject to change; the following requirements are posted as of June 1, 2024.

All animals exhibited must have a current health certificate/certificate of veterinary inspection (CVI) issued within thirty (30) days before the show. The certificate must be issued from the state of origin by a licensed accredited veterinarian. The animals must have individual identification stating that each animal has been examined and/or are free of infectious, contagious, & communicable disease.

The following must be used as the official identification number:
Swine: Federal 840 tag number (Ear notches will be used as a secondary form of identification).
Steers: Federal 840 tag number
Lambs: USDA Scrapie ID
Goats: USDA Scrapie ID
Breeding Cattle: Registration tattoo with papers or official ID tag (Federal 840 Tag preferred).

Official veterinarians will maintain an office in the American Royal building. All livestock entering the show will be subject to examination by a show and/or State Veterinarian upon arrival to and/or during the show. Any animal, of any species, showing evidence of infectious, contagious, and/or communicable disease will be immediately withdrawn from the show, removed from the grounds, and/or held in quarantine at owner's risk and expense. These animals must remain in the quarantine area while on the grounds. Failure to cooperate with any precautions seen fit by the American Royal staff and/or show/State veterinarians may result in disqualification. There will be no refunds of any entry fees for animals withdrawn from the show.

Health Inspections for All Exhibitors: Upon arrival, animals will be briefly examined in their trailers. Please have health papers available for this inspection. Designated inspection locations for each type of livestock are listed below:

- Swine:
  - The designated location for complete swine health checks will be under the viaduct South of Governor's Exposition Building. Upon approval of State Veterinarians, swine will be allowed to unload and stall.
- Lambs & Goats:
  - After unloading on the East side of Lower Exhibition Hall, a complete health check will be conducted at the top of the ramp in Upper Exhibition Hall. Upon the approval from the State Veterinarians, lambs & goats should proceed to stalling.
- Cattle:
  - All cattle will be inspected at the vehicle entry gate and then will be allowed to unload. Cattle ultimately must be individually viewed by State Veterinarians in their stalls. It is the responsibility of all livestock exhibitors to have their health papers checked by the State Veterinarians. Papers must be checked before animals will be allowed to show.

The American Royal Management reserves the right to change and/or modify vet check procedures as necessary.

Health Requirements for Out of State Exhibitors: If a permit is necessary for your animals to enter the State of Missouri, an accredited veterinarian needs to request the permit from the Missouri Department of Agriculture (573)751- 3377, not more than **15 days prior to arrival** at the American Royal Complex. Consult your veterinarian for interpretation of the requirements outlined on the next page. **All animals moving interstate for exhibition must have official individual identification on a health certificate.**

Brucellosis:

a) Breeding cattle from Brucellosis-free states may enter without a Brucellosis test.
b) All breeding cattle, 18 months of age and over, from Brucellosis Class A states must be tested and negative within 30 days of the show.

c) Test negative within 60 days

Lambs & Goats

All lambs and goats must be individually identified and must have an official Scrapie ID that lists their flock of origin and individual number. If lambs or goats have had ringworm or fungus, lesions must have dried and healed. Any animal found to have open, draining wounds or active infectious diseases will be disqualified.

All swine must have an official Federal 840 tag. Ear notches will be used as a secondary form of verification. <u>All Out of State swine are required to have an entry permit.</u>

Rule 29 Judging Contests: An exhibitor, by virtue of his/her entry and presence at the show, is expected to allow his/her animal(s) to be used in 4-H, FFA, or collegiate judging contests.

Rule 30 Signage and Decorations: There is no signage allowed outside your assigned exhibitor space. Decorations, signs, posters, etc., may not be taped, nailed, tacked, or otherwise fastened to ceilings, painted surfaces, columns, glass doors, marble, fabric, walls, etc. Approved tape 3M 9589 (double side adhesive), 3M 471 (single side adhesive) and Gaffers tapes are the only approved products for booth markings and carpet applications within the facility. Applied tapes and any residue must be removed from all surfaces prior to move-out. Paint, shoe polish and unapproved tapes are not allowed to be used in the facility. No drilling of the structure is allowed. Any means of attachment must be non-destructive to the structure. Helium balloons are not allowed inside the facility. Glitter and adhesive-backed decals are not permitted in the facility or on the premises. The American Royal reserves the right to assess competitors for reasonable repair costs resulting from the use of unauthorized signage or decorations.

Rule 31 Refusal to Parade: Shows and parades of livestock are an important educational feature of the American Royal. Notice of time and place of parades will be announced by superintendents. Exhibitors refusing to exhibit their animal when called by the superintendent may forfeit all prizes previously won and may be barred from further participation in the Show and required to remove their stock from the Show grounds immediately. Additional penalties may be imposed. Refusal to parade for reasons that meet the approval of the management are excused.

Rule 32 Photographs: Exhibitors of all Champion or Reserve Champion winners must make their animals available for taking of official photographs. Upon request of the American Royal Livestock Show, exhibitors shall make any other animals exhibited available for photographs. Photographs of any animals or exhibitors taken at the show may be used for promotion of the American Royal without compensation to the exhibitor. All such photographs are to become the property of the American Royal Livestock Show, but exhibitors and other interested parties may order prints from the Official Photographer at their expense.

Only photographers displaying the badge of "Official Photographer" are authorized to take livestock photographs for sale on the show grounds.

Official Photographer: Next Level Images

Official Livestock Videographer: Walton Webcasting

Rule 32a Media Purposes: By participating in an American Royal event, you consent to your voice, name, and/or likeness being used, without compensation, in any and all media or any other purposes by the American Royal Association, its affiliates and representatives. You hereby hold harmless and release and forever discharge the American Royal Association from all claims and demands related to the use of these images. If you do not wish to appear in images, please speak with the American Royal communications department prior to the event.

Rule 33 Tie-Outs: NO TYING OUT OF CATTLE IS PERMITTED UNTIL 5:30 PM EACH DAY. Temporary tie-outs are available at no charge on first-come basis. Since most cattle will be on the grounds at the same time, please be considerate of fellow exhibitors and only use the tie-out space needed. The American Royal does not guarantee tie-out space and is not liable for security, accidents, or loss of animals or articles in the tie-out area. Cattle tie-outs are temporary panels and, as such, may not be substantial enough to contain some animals. Exhibitors who elect to tie-out at night do so at their own risk and are responsible for the security of their own animals. **No tents are allowed in tie-outs.**

Rule 34 Arrival and Release of Livestock: Arrival and release times are determined by the management in an effort to make the best use of available space and to provide the best possible show for all in attendance. **Exhibitors are expected to keep their livestock on display until the designated time for release unless permission for early release is granted by the Livestock Event Manager.** Failure to comply with this rule may result in forfeiture of premiums. The stated release time should be considered when a decision to enter is made. If necessary, to allow time for cleanup, exhibitors are expected to remove animals and tack from tie and pen space promptly after release time if asked by management to do so.

Rule 34a Reception of Livestock: An earliest arrival time will be stated for all departments. Livestock coming from other shows with overlapping dates must be granted a late arrival when arranged in advance by emailing the Livestock Event Manager: Livestock@americanroyal.com.

Rule 34b Removal of Exhibits: Release times are listed under Department Headings. All first week animals, tack, and equipment must be removed from the American Royal barns by 7:00 p.m. Monday, October 14th, 2024. All second week Market Steers, Steer Momma's, Market Hogs, Breeding Gilts, Lambs, and Goats along with their tack, and equipment must be removed from the American Royal barns by 11:59 p.m., Saturday, October 19, 2024. All third week animals, tack, and equipment must be removed from the American Royal barns by 11:59 p.m., Sunday, October 27, 2024. **Exhibitors must enter through South Gate A (Livestock Gate) to load and unload. No trailers will be allowed through the gate on Wyoming Street.**

Rule 35 Judges: Judges are requested to be familiar with the rules and regulations of this show, and to especially note those rules bearing on the classes they will judge. Due to unforeseen circumstances substitute judges may be made without notification.

Rule 36 Time of Judging: Judging times can be found in the tentative schedule of events. Exhibitors should ascertain at what time the exhibits entered will be judged. Any exhibit not presented promptly at the scheduled time will be barred from competition in the class called. No complaint or protest on the grounds that the judges overlooked exhibits will be considered.

Due to unforeseeable problems with any mechanical devices, the PA system and class calls over that system must be considered a courtesy. It is the responsibility of the exhibitor to have his/her animal in the ring at the time of judging.

Rule 37 Conduct of Exhibitors: If an exhibitor, in any way, whether in person or by agent, employee, or independent contractor, interferes with a judge during the exposition or demonstrates disrespect to the judge or the show, the management may exclude such exhibitor from competition and may also withhold from such exhibitor any premiums. While in the show ring, exhibitors are required to be neatly and appropriately dressed when exhibiting livestock.

All exhibitors, parents, agents, employees, and independent contractors are expected to conduct themselves in proper fashion. Any disorderly conduct, theft, loud, profane language, or disturbances of any nature may be cause for disqualification from all American Royal events and shows and banishment from the premises. ***Exhibitors found in violation of these rules can be added to the RID (Rule Infraction Database) list.***

Rule 38 Alcohol: Outside alcohol is prohibited at all times within the American Royal Complex per City lease agreement.

Rule 39 Legal Drinking Age: In Missouri, the legal drinking age is 21. In accordance with this law anyone under 21, in possession of or consuming alcoholic beverages on the American Royal grounds may be reported to the authorities and may be disqualified from all American Royal events, shows, and sales.

Rule 40 Decision of the Judge is Final: The decision of the judge is final in all cases, except where mistake, fraud, misrepresentation, or collusion, not discovered at the time of the award, is proven. In such case, the management or such referee as may be appointed may make the decision; or at its discretion, the case may be appealed to the Executive Committee, from whose decision there can be no appeal.

Rule 41 Code of Ethics: To maintain a high degree of integrity, the American Royal Livestock Show Management reserves the right to disqualify any animals they believe have been fitted in an unethical fashion.

Every exhibitor in consideration of his/her entry being accepted by the American Royal, specifically represents that the exhibitor's animal's natural conformation and structure has not been altered in any way. This alteration is also known as "unethical fitting".

Unethical fitting includes but is not limited to: injection of gas, air, oil, or other foreign substances; cutting/tearing of the hide/underneath the hide or removal of tissue in any attempt to alter the physical appearance of the animal; numbing or "deadening" an animal's tail; cutting tendons of an animal; using foreign substances to build or cosmetically re-shape feet; as well as "twining" which includes the attachment of hair or hair substances (i.e. baling twine, cloth, fiber, etc.).

Any animal found to have surgical alterations other than dehorning, castration, or docking may be disqualified. Unethical fitting also includes attempts to disrupt or change normal dental development. The act of artificially filling animals internally, which includes stomach pumping, drench tubes, or any other method *per os* (by esophagus) is prohibited for all species.

No injections sites (including sites from acupuncture treatments) may be found in marketable areas such as top, rounds, hips, etc.

The administration of any drug prohibited by Federal, State, or Local law or any drug used in a manner prohibited by Federal, State, or Local law is prohibited. Any entry or substitution made, or attempted, in any breeding or market class through deceit may result in disqualification of all animals and parties involved. Said parties may be subject to subsequent actions by the American Royal. In such cases where unethical fitting, fraud, or misrepresentation appears to have been attempted, the American Royal may appoint veterinarian, official, or committee members to inspect the entry. The American Royal will follow a course of action based upon the findings and conclusions of the examining veterinarian,

official, or committee. ***Any exhibitor that is disqualified for any infraction of the rules or code of ethics violations will forfeit all premiums and proceeds. Exhibitors in violation can also be added to the RID (Rules Infraction Database) list.***

Every exhibitor releases the American Royal Association and/or its officers and show officials from all claims or demands arising from subsequent action taken by the American Royal.

Rule 42 Quality Assurance: All market exhibitors are required to complete a Quality Assurance program. Examples include: Youth for the Quality Care of Animals, Quality Counts, Beef Quality Assurance, Pork Quality Assurance, etc. The program name and certificate number will be required on all market entry forms. Exhibitors failing to submit this information will have entries returned as incomplete. The American Royal reserves the right to verify if programming fits the requirements of the show and is acceptable.

All market animal exhibitors qualifying for the Junior Premium Livestock Auction will be required to complete an Animal Husbandry form. **All medications, vaccinations, injections, medical treatments, and any foreign substances administered, in any form or manner, from the ownership deadline (August 15, 2024) through the Junior Premium Livestock Auction must be recorded.** This form will be surrendered prior to the Junior Premium Livestock Auction. The American Royal strongly advises all exhibitors to maintain this form beginning with ownership and bring with them to the American Royal to ensure accuracy in record keeping. The carcass of the exhibitor's animal shall reveal no evidence of any unethical fitting practices including but not limited to injection sites in marketable areas such as top, rounds, hips, etc.

Rule 43 Drug and Chemical Residue Testing: The American Royal reserves the right to conduct fluid tests, which may include blood and/or urine, and/or tissue tests and/or hair on any animal entered for competition. An exhibitor of an animal producing a positive test result for any unapproved medication or chemical residue may be disqualified and barred from future competition at the American Royal. Any exhibitor whose market animal tests positive for any type of performance enhancing medications, drug, chemical, or substance, including but not limited to steroids, diuretics, anti-inflammatories, tranquilizers, pain killers, or chemical residues may NOT receive payment for that animal and agrees to accept any and all consequences without recourse against the American Royal. ***Exhibitors found in violation of these rules can be added to the RID (Rule Infraction Database) list.***

Rule 43a Ractopamine: According to the Food and Drug Administration, Ractopamine remains an approved feed additive for hogs that are harvested under the USDA. At this time, the American Royal will not test for Ractopamine in market barrows. However, all exhibitors that choose to use Ractopamine will be expected to follow all label instructions.

Rule 44 Animals Disqualified: If an animal awarded a prize is disqualified, lower placing animals will NOT move into higher placing positions.

Rule 45 Paying Awards: Premium money will be mailed to exhibitors and can be expected by January 31, 2024. The American Royal is not responsible for payment of special awards offered by breed associations or individuals. Judges' Books will be used as the only evidence for payment of premiums. Ribbons are not accepted.

The management reserves the right to withhold premiums awarded in any case in which it appears that the rules have not been complied with, or that fraud or deception has been practiced or attempted.

All sale proceeds of the Junior Premium Livestock Auction will be withheld if, after slaughter, the animal is found to have been tampered with or altered or if the carcass is condemned.

Premium monies and/or sale proceeds in any division may be held by the American Royal indefinitely pending drug and other testing or any ongoing investigation or legal action. Funds may be released when all matters are closed.

Rule 46 Scholarships: All scholarships are paid directly to the exhibitor upon proof of enrollment in an institution of higher learning, which may include technical school, community or junior college, university, and graduate or professional school. If the exhibitor chooses not to attend or is unable to attend an institution of higher learning, they must submit a letter to explain the extenuating circumstances.

Scholarships will be paid out to recipients once they have graduated high school. If scholarship funds are not claimed by 25, they will be forfeited to the American Royal Association.

Rule 47 Personal Golf Carts/Scooters: No personal golf carts, gators, or scooters are allowed on the American Royal grounds.

Rule 48 Vendors: If you wish to sell goods or services at the American Royal, you must register as a vendor. Anyone found selling items without the permission of the American Royal or outside of their designated vendor space may be fined an amount two times the cost of a standard booth space and asked to leave the property. For more information on becoming a vendor, please contact Sammy Basler at 816-231-9800 or marketplace@americanroyal.com.

Rule 49 Protests: Judging procedures will not be interrupted for protest investigations. A decision regarding the results of a protest may be withheld until a thorough investigation is completed.

The management will not consider any protests relating to the competence of any judge or the allegation that a judge overlooked an animal. All protests must be in writing, signed, and accompanied by a deposit of $500.00 cash or certified check, which will be forfeited if the protest is not sustained. All expenses of proof must be paid by the protesting party. These expenses will not be refunded, regardless of the outcome of the protest. Protests must plainly state the cause of the complaint or appeal and must be delivered to the Livestock Manager within one hour of the occurrence of the incident from which the protest arises. The American Royal will consider protests as speedily as possible and their decision in the matter shall be final.

Rule 50 Liability: The American Royal Association, Inc., and its committees, officers, employees, agents, and representatives are not responsible or liable for any injury, loss, or damage sustained in any way by any exhibitor, employee or independent contractor of an exhibitor, spectator, or any other person or person. The Association is likewise not responsible or liable for damage or injury to any article or animal, or the destruction, injury, or disappearance of such article or animal. Each exhibitor is solely responsible and liable for any loss, injury, or damage done to, or occasioned by, or arising from any article or animal. Exhibitors agree to protect and indemnify the Association against all claims, legal, or other proceedings and all incidental or related expenses, losses, or damages, as well as damage or injury to any person or property, caused by the exhibitor or his/her employees, independent contractors, or any article or animal.

Rule 51 Health and Safety: Exhibitors and family members are asked to follow all health and safety guidelines. By participating or attending the American Royal, you are acknowledging that an inherent risk of exposure to contagious illnesses exists in any public place where people are present. By attending the American Royal, you and any guests voluntarily assume all risks and agree to not hold the American Royal Association, City of Kansas City, Missouri, County of Jackson; or any of their affiliates, directors, officers, employees, agents, contractors, or volunteers liable for any illness or injury.

Rule 52 Weapons: All weapons, concealed or otherwise, are prohibited on the American Royal Complex.

American Royal Livestock Show General Information/Rules and Regulations apply to the Junior Market Division.

Eligibility

The Junior Market Livestock Show is open to youth who are at least 7 years old and no more than 21 years old as of January 1, 2024. The American Royal Association *prefers* that exhibitors are in good standing of a regularly organized 4-H club or members of the FFA. For verification purposes, a state issued form of identification will be used. All market animals of all species must be solely owned by a single exhibitor (not partnership or family farm). See junior breeding heifer division for more information on junior heifers and breeding gilt division for more information on breeding gilts.

Exhibitors may show three market steers, three market goats, three market lambs, and three market barrows in the Junior Market division. All market animals must have DNA submitted. Only animals officially entered will be allowed in the American Royal facility.

DNA Validation Rules

1. **All market steers, market barrows, market lambs, and market goats** entered for competition must have been owned solely by the junior exhibitor by **August 15th, 2024**.

DNA Envelope cost breakdown:

July 1st – August 15th - $10.00/envelope

NEW **August 16th – August 20th - $50.00/envelope (overnight shipping option only)**

August 21st – August 26th - $50.00/envelope (Must Pick-up at American Royal Office)

DNA envelopes purchased after August 15th will still adhere to the $50.00 late processing fee per exhibitor And must be postmarked by August 26th to still be accepted.

DNA postmarked by **August 15th, 2024** ……. No late processing fee
DNA postmarked between **August 15th-26th** ……. $50.00 late processing fee per exhibitor
DNA postmarked **August 27th or after**……. Not accepted

**It is highly suggested DNA be sent certified mail with return receipt, to ensure DNA is received in a timely manner. The American Royal has no ability to track envelopes that are not sent certified mail, and in all cases, reserves the right to reject DNA envelopes that do not meet the above deadline. **

2. **Hair will be used for DNA validation on all species**. Hair collection envelopes must be ordered from the American Royal. **All DNA validation envelopes will be species specific and color-coded (goats-green, lambs- purple, steers- goldenrod, swine-blue).** Hair sample for livestock being shown at the 2024 American Royal must be submitted in the 2024 DNA hair sample envelope. Please follow the instructions for collecting hair samples exactly. Should the original sample not be a valid sample, the animal may be disqualified, and no monies will be paid.

3. There is no limit on the number of DNA samples that an exhibitor may submit.

4. **Animals must be individually identified**. The following forms of identification must be used. **The identification on the animal at the time of turning in weight cards must exactly match the identification on the DNA envelope**.
    a. Swine (market barrows, crossbred and pedigreed gilts) must be identified by a Federal 840 ID Number **and** Ear Notches
    b. Steers must be identified by a Federal 840 ID Tag. No exceptions.
    c. Lamb and Goat must be identified by a Scrapie ID number*. Entire ID number including state ID and herd number** is required

***Because scrapie tags can occasionally be lost, it is recommended that you also tattoo the lamb or goat and record the tattoo number on the front of the DNA envelope.**
****Scrapie tag numbers vary greatly, however each tag will include a state identified, herd number, and animal number. The scrapie number on the DNA envelope must include the entire ID number as listed above and must exactly match the number on the scrapie tag at check-in.**

5. Any discrepancies at check-in will be the responsibility of the exhibitor and the animal may be disqualified from the show. Should additional DNA testing be allowed (only if approved by Livestock Event Manager and determined on an individual basis), the cost to the exhibitor will be $150.00 payable immediately by cash or credit card only. After testing is complete, any exhibitor showing an animal without a matching DNA sample will be subject to consequences determined by the American Royal, including, but not limited to, disqualification of animal, forfeit of all monies, and suspension from showing at the American Royal.

6. **Siblings** (two or more individuals having one common parent) **may submit DNA samples on the same animal** if the siblings are involved in the care and management of the animal. **Names and signatures of each sibling must appear on the DNA envelope when it is submitted**. Siblings may submit DNA samples on the same animal but may not show the same animal. All DNA validation envelopes from the same family should be sent in one large envelope.

7. DNA provides proof of ownership. With the exception of the sibling rule above, market animals can only have DNA submitted by one exhibitor. If multiple DNA samples are received for the same animal by multiple exhibitors, the animal and the exhibitor will be disqualified from the 2024 show.

8. **DNA validation is a prerequisite to market animal, wether dam doe, wether dam ewe, pedigreed gilt, & crossbred breeding gilt entry. DNA does not constitute an entry in the 2024 American Royal Livestock Show.** Regular entry procedures must be followed; entry deadline is September 10th, 2024. An exhibitor may enter three market barrows, three market lambs, three market goats, and/or three market steers. Only animals which have an individual 2024 DNA Validation Envelope on file with the American Royal may be entered.

9. Should it be necessary to return your DNA validation envelopes for any reason (lack of signatures, etc.) there will be a $10.00 re-processing fee.

Note: DNA Validation Envelopes/Samples submitted to the American Royal on all junior market animals, pedigreed breeding gilts, crossbred gilts, wether dam ewes, and wether dam does become the property of the American Royal. Exhibitors relinquish any claim to said envelopes and samples when submitted as proof of ownership. Validation Envelopes/Samples are stored in a secure environment and are destroyed in due time following the show.

Dress Code

Exhibitors are to be neatly and appropriately dressed when exhibiting. Exhibitors participating in showmanship will be required to wear an American Royal Livestock Show shirt. These shirts may be picked up upon arrival in the show office.

Health Requirements

Health requirements are located in the General Information Section. All livestock entering this show will be subject to examination by a show or State Veterinarian upon arrival and/or during the show.

Animals with active lesions of ringworm with resulting loss of hair, or multiple warts visible will not be permitted to exhibit. If animals have had ringworm, lesions must be dried and healed with hair growing back in. Any animal, of any species, showing evidence of infectious, contagious, or communicable diseases will be immediately withdrawn from the show, removed from the grounds or held in quarantine at owner's risk and expense. These animals must remain in the quarantine area while on the grounds, failure to cooperate may result in disqualification. There will be no refund of entry or other fees on animals withdrawn.

Weigh Back

The American Royal will be using a weigh back system. A weight card will be obtained when the exhibitor checks in at the Livestock Show Office. The junior market exhibitor must fill out and turn in the weight card at check-in with a called/declared weight. This will become the animal's official weight. All junior market animals will be divided into classes according to weight after processing. All market steers will be weighed before going into the show ring. The top five (or more, at the show's discretion) placing animals in each class for market lamb, goat, and hog classes will be weighed. No reweighs will be allowed once the animal has stepped off of the scale. **New in 2024 market hogs and breeding gilts will have a 15lb weigh back, market lambs and wether dam ewes will have a 7lb weigh back, market goats and wether dam does will have a 5lb weigh back. Market Steers will still have a 5% tolerance.** All animals outside of the weigh back tolerance will be disqualified.

Judging Contest

An exhibitor, by virtue of their entry and presence at the show, is expected to allow their animal(s) to be used in 4-H, FFA, or college judging contests.

Caring for and Showing Animals

Exhibitors must care for their livestock and present them before the judges unassisted. No nose leads allowed when showing market steers.

Junior market exhibitors, in all divisions, must be at the American Royal to show their own animals. A substitute showman will only be allowed for the following reasons:

- Two animals in the same class
- Conflicts with animals being exhibited in other species
- Death or other family crisis
- Sickness or a physical injury documented by a physician
- A pre-approved 4-H or FFA activity. No other school activity will qualify.

Written permission for a substitute showman must be obtained from the Livestock Event Manager. When an exhibitor has more than one animal in the same class, one animal may be exhibited by another youth member without obtaining special permission.

Feed and Bedding

Feed may be purchased from the feed department. Exhibitors must furnish their own feed pans, buckets, and other equipment necessary to care for their animals. Cattle ties and the tie-out area will be bedded with material provided by the American Royal. Exhibitors may purchase bedding from the feed department or bring their own.

Showmanship Contests

Any exhibitor showing in the junior market show may enter the respective showmanship contest. There will be separate contests for beef, swine, goats, and lambs. Breeding gilts will show with market barrows. The entry fee is $10.00 per contest if included on entry form. Exhibitors may enter at the time of arrival for a fee of $30.00 per contest. Contests will be divided into classes by exhibitor age. Exhibitors must use their own animal that is properly entered in the 2024 American Royal Livestock Show. They may not bring an animal exclusively for the showmanship contest. Fitting is optional in the beef showmanship contests.

Exhibitors participating in showmanship will be required to wear an American Royal Livestock Show shirt. These shirts may be picked up upon arrival or in the show office.

There will be three age divisions of Showmanship for market animal exhibitors: (based on exhibitor's age on 1/1/24):

a) Animals must be in good health and carcasses free of drug or chemical residue.
b) Antibiotics and sulfonamides have required withdrawal periods.
c) Drug label directions for use and withdrawal periods must be followed.
d) If drug or other chemical residues are found in tissue of carcasses, the entire carcass may be condemned. If drug or other chemical residues are found in tissue of carcasses of animals sold through the sale or sales connected with the American Royal Livestock Show, said show will in no way be liable or responsible for conditions of carcass or sale price of animal. Exhibitor forfeits all right to sale price. Before administering antibiotics and/or sulfonamides, consult a licensed practicing veterinarian, or label directions of the drug.

Wholesome Assurance Statement

The use by non-veterinarians* of animal drugs or other substances in any manner other than in accord with the labeling approved by FDA is a violation of federal law.

3. Absolutely no extra or alternate market barrows (market barrows not entered in the show) will be allowed on the grounds.

4. Ownership deadline for market barrows is August 15th, 2024 and DNA Validation Samples must be on file with the American Royal on or before that deadline.

5. DNA Validation Samples must be on file by August 15th, 2024 for all market barrows. Market barrows Federal 840 ID number and ear notches must match exactly the Federal 840 ID number and ear notches that was submitted on the DNA envelope. For more DNA information, see the DNA Validation Rules under the Junior Market Division.

6. **Market barrows will be penned by arrival**. Mandatory 2 pigs per pen. Dividers are encouraged. No tack pens. Pens are strictly on a first-come, first-serve basis. Due to limited space, no exhibitor will be allowed to reserve pens except special circumstances with permission from show management.

7. Once moved-in market barrows may not leave the barn. Barrows will be released following the Market Barrow Show. Market barrows may be exercised in the barn or show arena if available.

8. No cots or other sleeping accommodations will be allowed in the barn.

9. All market barrows must have an official health certificate issued by an accredited veterinarian in the state of origin.

10. The American Royal will be using a weigh back system. A weight card will be obtained when the exhibitor picks up their exhibitor packet. The junior market hog exhibitor must fill out and turn in the weight card at check-in with a called/declared weight. This will become the animal's official weight. All junior market barrows will be divided into classes according to weight after check-in. No reweighs will be allowed once the animal has stepped off the scale. There will be a **15lb** tolerance from the declared weight and all animals outside of the **15lb** tolerance will be disqualified. Five (5) or more in each class for market barrows will be weighed. The minimum weight for exhibition of a market hog at the American Royal is **230** pounds and maximum weight is **300** pounds. Market barrows not meeting the minimum requirements will not be allowed to show.

11. **Market barrows will be released following the show**. It is a non-terminal market hog show (except for those animals sold through the Junior Premium Livestock Auction).

12. Shakers, downers, and any other unfit hogs will not be allowed to show.

13. Breed and crossbred divisions will be broken into classes at the discretion of the superintendent and the American Royal Livestock Event Manager.

14. The act of artificially filling animals internally, which includes stomach pumping, drench tubes, bottles, syringes, suckle bottles, or any other method per os (by esophagus) is prohibited on the American Royal grounds.

15. All clipping and/or shearing of hogs is prohibited on the grounds of the American Royal. No hogs may be restrained on the grounds of the American Royal by snare, wire, rope, or other means unless under the supervision and/or direction of the show office or the official veterinarian.

16. An exhibitor, by virtue of their entry and presence at the show, is expected to allow their animal(s) to be used in 4-H, FFA, or college judging contests.

17. Exhibitors are responsible for keeping pens clean and will provide their own feed and water. Feed and bedding is available on the grounds in the Feed Room. Exhibitors will be allowed to bring their own feed on the grounds in limited amounts on a daily basis.

American Royal Livestock Show General Information/Rules and Regulations apply to the Junior Breeding Division.

Only animals officially entered will be allowed on the show grounds.

Junior Breeding Division Rules

1. The junior breeding heifer and breeding gilt shows are open to any exhibitor who is in good standings with their junior breed association.

2. The junior breeding heifer and breeding gilt show will follow those junior breed associations' age requirements. See the corresponding breed section for specific age requirements.

3. For junior breeding heifers to be eligible for open cattle show competition, exhibitors must comply with open cattle show regulations including guidelines for entry, arrival, and release.

4. Junior breeding heifers must be registered solely in the junior member's name on or before September 10th, 2024. Animals registered in a family name or two or more junior's names are not eligible to show in the junior show. This applies even if an animal is registered in a farm or ranch name and the junior member is the only person listed on that membership. Bred and owned animals must be owed solely by a junior member on or before September 10th, 2024. Be sure to check individual breed rules for any exceptions.

5. Original registration certificate must be presented for inspection.

6. Junior breeding heifers and breeding gilts must be purebred unless otherwise specified.

7. Animals entered in a junior breeding division must meet the respectable breed association's requirements.

8. Officials from each breed association will check tattoos on junior breeding heifers and ear notches on breeding gilts, registration papers, and will distribute entry numbers at check-in.

9. Show management reserves the right to break large classes if deemed necessary, in which case the monies may be split.

10. Cattle recorded in more than one breed registry may only show in one breed show. An animal entered for both the junior and open breeding shows, must show in the same breed.

11. Exhibitors of the champion junior heifer of their respective breed are expected to show in the Supreme Heifer Drive unless otherwise stated in breed rules. Any exhibitor choosing not to compete as the breed champion will not receive a scholarship and that breed will not be represented in the Supreme Champion line-up. Exhibitors of these champions should be present to show their own animal(s) unless prior permission is given by show management.

12. Exhibitors of the champion Breeding Gilts of their respective breed are expected to show in the Supreme Breeding Gilt Drive unless otherwise stated in breed rules. Exhibitors of these champions should be present to show their own animal(s) unless prior permission is given by show management.

Purebred &Crossbred Breeding Gilts, Wether Dam Ewes, Wether Dam Does

DNA Validation Rules

1. **All Purebred & crossbred gilts, wether dam ewes, and wether dam does** entered for competition must have been owned solely by the junior exhibitor by **August 15th, 2024**.

DNA Envelope cost breakdown:
July 1st – August 15th - $10.00/envelope
August 16th – August 20th - $50.00/envelope (overnight shipping option only)
August 21st – August 26th - $50.00/envelope (Must Pick-up at American Royal Office)
DNA envelopes purchased after August 15th will still adhere to the $50.00 late processing fee per exhibitor And must be postmarked by August 26th to still be accepted.

DNA postmarked by **August 15th, 2024** …….. No late processing fee
DNA postmarked between **August 15th-26th** ……. $50.00 late processing fee per exhibitor
DNA postmarked **August 27th or after**……. Not accepted

**It is highly suggested DNA be sent certified mail with return receipt, to ensure DNA is received in a timely manner. The American Royal has no ability to track envelopes that are not sent certified mail, and in all cases, reserves the right to reject DNA envelopes that do not meet the above deadline. **

2. **Hair will be used for DNA validation on all species**. Hair collection envelopes must be ordered from the American Royal. **All DNA validation envelopes will be species specific and color-coded (goats-green, lambs- purple, steers- goldenrod, swine-blue).** DNA hair sample for livestock being shown at the 2024 American Royal must be submitted in the 2024 DNA hair sample envelope. Please follow the instructions for collecting hair samples exactly. Should the original sample not be a valid sample, the animal may be disqualified, and no monies will be paid.

3. There is no limit on the number of DNA samples that an exhibitor may submit.

4. **Animals must be individually identified**. The following forms of identification must be used. **The identification on the animal at the time of turning in entry forms must exactly match the identification on the DNA envelope**.
   a. **Purebred** & Crossbred gilts must be identified by a Federal 840 ID Number **and** Ear Notches
   b. Wether dam ewes and wether dam does must be identified by a Scrapie ID number*. Entire ID number including state ID and herd number** is required

**Because scrapie tags can occasionally be lost, it is recommended that you also tattoo the wether dam ewe or wether dam doe and record the tattoo number on the front of the DNA envelope.*
***Scrapie tag numbers vary greatly, however each tag will include a state identified, herd number, and animal number. The scrapie number on the DNA envelope must include the entire ID number as listed above and must exactly match the number on the scrapie tag at check-in.*

5. Any discrepancies at weigh-in or check-in will be the responsibility of the exhibitor and the animal may be disqualified from the show. Should additional DNA testing be allowed (only if approved by Livestock Event Manager and determined on an individual basis), the cost to the exhibitor will be $150.00 payable immediately by cash or credit card only. After testing is complete, any exhibitor showing an animal without a matching DNA sample will be subject to consequences determined by the American Royal, including, but not limited to, disqualification of animal, forfeit of all monies, and suspension from showing at the American Royal.

6. **Siblings** (two or more individuals having one common parent) **may submit DNA samples on the same animal** if the siblings are involved in the care and management of the animal. **Names and signatures of each sibling must appear on the DNA envelope when it is submitted**. Siblings may submit DNA samples on the same animal but may not enter the same animal in the show. All DNA validation envelopes from the same family should be sent in one large envelope.

7. DNA provides proof of ownership. With the exception of the sibling rule above, market animals, purebred gilts, crossbred gilts, wether dam ewes, and wether dam does can only have DNA submitted by one exhibitor. If multiple DNA samples are received for the same animal by multiple exhibitors, the animal and the exhibitor will be disqualified from the 2024 show.

8. **DNA validation is a prerequisite to entry. DNA validation does not constitute an entry in the 2024 American Royal Livestock Show.** Regular entry procedures must be followed; entry deadline is September 10th, 2024. An exhibitor may enter three breeding gilts, three wether dam ewes, and three wether dam does. Only animals which have an individual 2024 DNA Validation Envelope on file with the American Royal may be entered.

9. Should it be necessary to return your DNA validation envelopes for any reason (lack of signatures, etc.) there will be a $10.00 re-processing fee.

Note: DNA Validation Envelopes/Samples submitted to the American Royal on all junior market animals, purebred gilts, crossbred gilts, wether dam ewes, and wether dam does become the property of the American Royal. Exhibitors relinquish any claim to said envelopes and samples when submitted as proof of ownership. Validation Envelopes/Samples are stored in a secure environment and are destroyed in due time following the show.

If animals have had ringworm, lesions must be dried and healed with hair growing back in. Any animal, of any species, showing evidence of infectious, contagious or communicable diseases will be immediately withdrawn from the show, removed from the grounds or held in quarantine at owner's risk and expense. These animals must remain in the quarantine area while on the grounds, failure to cooperate may result in disqualification. There will be no refund of entry or other fees on animals withdrawn.

Judging Contest

An exhibitor, by virtue of their entry and presence at the show, is expected to allow their animal(s) to be used in 4-H, FFA, or college judging contests.

Caring for and Showing Animals

Exhibitors must care for their livestock and present them before the judges unassisted.

Junior Breeding Exhibitors, in all divisions, must be at the American Royal to show their own animals. A substitute showman will only be allowed for the following reasons:

- Conflicts with animals being exhibited in other species
- Death or other family crisis
- Sickness or a physical injury documented by a physician
- A pre-approved 4-H or FFA activity. No other school activity will qualify.

Written permission for a substitute showman must be obtained from the Livestock Event Manager. When an exhibitor has more than one animal in the same class, one animal may be exhibited by another youth member without obtaining special permission.

Inspection

All animals of all species in the junior breeding division are governed by the rules and regulations of the American Royal Livestock Show and are subject to visual, physical and biological screening and inspection by the American Royal Veterinarian and Show Officials. Any violation of the code of ethics, animal abuse, fraud or misrepresentation will be dealt with on an individual basis. Any market or breeding animal exhibitor that is disqualified for any infraction of the rules or code of ethics violations will forfeit all premiums and proceeds. Every exhibitor, by entering an animal for exhibition, agrees to submit the entry for inspection if requested; exhibitor then releases the American Royal Association and/or its officers or show officials from all claims or demands arising from subsequent action taken by the Executive Committee.

Feed and Bedding

Feed may be purchased from the feed department. Exhibitors must furnish their own feed pans, buckets, and other equipment necessary to care for their animals. Cattle ties and the tie-out area will be bedded with material provided by the American Royal, additional bedding may be purchased from the Feed Room. Breeding Gilt exhibitors may purchase bedding from the feed department or bring their own.

Steer Momma Rules

15. All General Rules and Regulations of the American Royal apply.

16. An exhibitor may show three steer momma heifers.

17. Absolutely no extra or alternate heifers (heifers not entered in the show) will be allowed on the grounds.

18. Females may be bred, but not have calved by date of the show.

19. Heifers must be two years of age or younger, mouthing of the females will be subject to show management decisions.

20. No cow/calf pairs.

21. Steer momma exhibitors should check the stalling chart at the arrival trailer or superintendent's office for their assigned ties in the cattle barn.

22. Heifers will be allowed to go out to tie-out at night, but only after 5:30 p.m. There are no assigned spots but please be respectful of other exhibitors.

23. No cots or other sleeping accommodations will be allowed in the barn or tie outs.

24. All females must have an official health certificate issued by an accredited veterinarian in the state of origin.

25. The act of artificially filling animals internally, which includes stomach pumping, drench tubes, bottles, syringes, or any other method per os (by esophagus) is prohibited on the American Royal grounds.

26. Steer Momma heifers will be shown by weight and divided into a reasonable number of classes and divisions.

27. The American Royal will be using a weigh back system. A weight card will be obtained when the exhibitor picks up their exhibitor packet. The junior steer momma exhibitor must fill out and turn in the weight card at check-in with a called/declared weight. This will become the animal's official weight. All steer momma heifers will be divided into classes according to weight after check-in. All steer momma heifers will be weighed before entering the show ring. No reweighs will be allowed once the animal has stepped off the scale. There will be a 5% tolerance from the declared weight and all animals outside of the 5% tolerance will be disqualified. There is no minimum or maximum weight for steer momma heifers.

28. Any Exhibitor caught using unethical fitting practices will have all premiums held and could result in disqualification. Unethical fitting includes but is not limited to: injection of gas, air, oil, or other foreign substances; cutting/tearing of the hide/underneath the hide or removal of tissue in any attempt to alter the physical appearance of the animal; cutting tendons of an animal; using foreign substances to build or cosmetically re-shape feet; as well as "twining" which includes the attachment of hair or hair substances (i.e. baling twine, cloth, fiber, etc.). Please read the Code of Ethics in the Rules and Regulations Section for more information.

29. An exhibitor, by virtue of their entry and presence at the show, is expected to allow their animal(s) to be used in 4-H, FFA, or college judging contests if selected by breed association or the American Royal staff.

30. Exhibitors are responsible for keeping stalls clean and will provide their own feed and water. Cattle bedding is provided, and additional bedding will be available for purchase in the Feed Room. Feed is available on the grounds the Feed Room. Exhibitors will be allowed to bring their own feed on the grounds in limited amounts on a daily basis.

Health Requirements

Health requirements are located in the General Information Section.

Any exhibitor failing to have a Grooming Chute Permit clearly visible will be subject to having the stand removed from the grounds.

Classification

All general rules & regulations for the American Royal Livestock Show apply.

Participation Statement

The American Angus Association, 3201 Frederick Ave, St. Joseph, MO, will participate in premiums offered in individual classes for junior Angus heifers, as included in its standard show classifications, according to the premium schedule based on the number of head shown. The premium assistance provided by the American Angus Association for participation in this show is in addition to the premiums offered by the show itself. The premium assistance should not be used to offset show expense and shall be included in the premium payments distributed by the show to the exhibitors.

A minimum of fifteen (15) head must be shown in the junior heifer Angus classes to receive American Angus Association premium participation. The show is not required to have all classes to be eligible for premiums. Separate classes for bred and owned heifers may be held if the size of the show merits a separate class.

Any classes listed that exceed 15 head per class should be broken into smaller classes by dividing the class as evenly as possible, without splitting animals with the same birth date. If there are more than 30 head in a division, the division should be split into Division 1, 2, etc. Class breaks will be at the discretion of the American Angus Association staff in attendance.

To be eligible for Association premiums, the entries must be recorded in the sole name of the junior exhibitor on or before September 10th, 2024. This ownership deadline applies to both owned and bred-and-owned females. The Association's contribution is included in the total premiums listed in each class.

Premiums from the Association are paid only to registered Angus cattle and only if the registration number is part of the show report provided to the Association. Therefore, all cattle should be registered at the time of entry to make certain they receive the Association's portion of the premiums.

The Association does not pay on premiums offered in championship classes. An animal may only be counted one time toward the total count for premium participation by the Association.

Exhibitors must have the original registration certificate issued by the American Angus Association available for inspection at the show for each animal or another current proof of ownership issued by the American Angus Association pedigree look up.

Any animal, upon check-in, which does not have a legible permanent identification mark (ear tattoo marks, freeze-branded marks, or hot branded marks) corresponding to the permanent identification on its registration certificate is ineligible to show. Once disqualified due to an incorrect or illegible permanent identification mark, animals cannot be re-identified (tattooed/branded) and rechecked at the show.

Any female shown with a calf at side: the calf must be the cow's most recent natural calf and the calf must be registered by show day and have proof of registration at check-in.

Only one person at a time shall lead an animal into the show ring.

Exhibitors who participate in shows that accept premium monies contributed by the American Angus Association are subject to the Association Rules as found in the Breeders Reference Guide of the Association. These rules are found in Part 2; Association Rules. The rules relating directly with the exhibition of Angus cattle are Part 2: Association Rules; Rule 800 Series; including Rule 800-810. These rules can be found at www.angus.org.

Altering the conformation and/or appearance of an animal for exhibition is prohibited. This includes the use of chin straps, covering of white skin, false tail heads (or use of any false hair), with the exception of false tail switches. The use of graphite, powders, hemp or other similar substances used externally are also prohibited. Other prohibited products include those used internally such as steroids, illegal or unlicensed pharmaceuticals or artificial filling. Any animal found to be in violation will be barred from showing.

At any show for which the American Angus Association appropriates funds toward the payment of premiums, no exhibitors, individuals assisting exhibitors or member owners at such show shall be allowed to use any coloring agents, on any animal exhibited. The Association may adopt and implement various tests designed to monitor this prohibition, including but not limited to a “white towel” or “white glove” test. No aerosol cans or other pressurized containers will be allowed in designated line up areas.

All animals exhibited are subject to DNA market or blood type test to verify accuracy of parentage as covered under the Association Rules and for other testing as required by the individual show.

Authorized representatives of the Association have the authority to enforce the rules set forth herein as well as in the Association Rules, including the barring of a registered animal from a livestock show at which it is to be shown, if there are reasonable grounds to believe a violation has occurred.

Age Requirement

Exhibitor’s must be ages 8-21 as of January 1 of the current year and must be a Junior, Regular or Life Member of the American Angus Association. Junior membership shall be issued only to an individual and shall expire upon attainment of age 21. Participation is acceptable through the calendar year of the individual’s 21st birthday. Special arrangements can be made beforehand for exhibitors that may need assistance while in the show ring.

Show management reserves the right to break large classes if deemed necessary, in which case the monies may be split.

American Angus Association Show Classification
The individual classes will be made up and divided after the cattle are checked in at the show according to the 2024 Angus Show Classifications. Class breaks will be at the discretion of the American Angus Association staff in attendance.

Junior Royal Spirit Award
Award given to one JRA member competitor who advocates for Red Angus by promoting pride and enthusiasm for his/her Red Angus cattle to the public and actively supports other exhibitors and junior members for the betterment of the breed while at the American Royal. Award to be given during the Junior show.

Paul S. McKie Memorial Red Angus Award
The Paul S. McKie Memorial Red Angus Award was established by his family in 2024. The award will provide a $500 scholarship to the exhibitor with the champion junior female in the Red Angus Junior Show. The trophy will be housed at the American Royal throughout the year, engraved annually with the recipient's name.

Paul was the last volunteer President and first Board Chairman of the American Royal after serving many years as Chairman of the Livestock Show. Paul and his wife, Liz, founded Tailgate Ranch in 1965 outside Tonganoxie, Kansas, where it is still in operation today.

Paul's interest in Red Angus cattle began in 1994 when he brought home his first two Red Angus bulls from Schuler Ranch in Bridgeport, Nebraska. Paul's vision was a uniform cowherd with a "Husker Hue" (Red), at a time when the breed was just beginning to gain some attention. Paul valued the calving ease and growth potential evident in Red Angus, a combination of genetic traits that, in those days, were quite contrary to one another. The Tailgate reputation for producing high quality Red Angus-based female replacements and cattle, which efficiently produce high quality beef, is his ranching legacy.

Stanley E. Stout Memorial Supreme Heifer Scholarship

The Stanley E. Stout Memorial Supreme Heifer Scholarship has been established in honor of Stanley Stout, American Royal Board of Directors member and chairman of the livestock committee. Stanley may be best known throughout the region as “the auctioneering voice” of the American Royal purebred livestock suctions and the Junior Premium Auction.

The winner of the Supreme Champion Heifer will be awarded a $10,000 scholarship. All other breed champions who are competing for the Supreme Champion will be awarded a $500 or a $1000 scholarship based on number of heifers shown in each breed over a 5 year average. The scholarship not only creates a legacy in the former community leader’s name, but strengthens a foundation of support for youth in agriculture.

Scholarships are presented only for advanced educational purposes of the winners. The sums assigned annually as scholarship will be maintained by the American Royal until such time as the recipients have enrolled and demonstrate that said funds will be directed to scholarship purposes. These scholarships are non-transferable. The funds shall be paid directly to the college or institution of advanced learning and/or training as approved by the Executive Committee of the American Royal.

Bud Sloan Supreme Heifer Trophy

In the fall of 1971 Bud Sloan began doing seasonal contract work for the American Royal. With his vast experience and knowledge about cattle and marketing, Bud was the ideal candidate to lead the American Royal Livestock Show. Bud has been involved in the American Royal as either beef cattle superintendent or livestock superintendent for at least 44 years.

Bud, along with his longtime colleague Stanley, were integral in forming a task force that reorganized the structure of the American Royal Livestock Show and established the show as it is known today. Bud was responsible in establishing the Stanley E. Stout Scholarship in the amount of $10,000.00 for the exhibitor of the Supreme Champion Heifer at the American Royal.

In addition, because of Bud’s efforts, each breed champion heifer receives a $500.00 or a $1000.00 scholarship based on the number of heifers shown in each breed over a 5 year average. Bud recognized the need to honor Stanley’s mark on the industry as well as bring more financial assistance for continuing education to youth involved in agriculture.
The hope is that Bud’s passion for cattle and the livestock industry will continue on through this trophy that was generously sponsored by Hartman Cattle Company, Tecumseh, Nebraska. This trophy will be awarded to the exhibitor of the Supreme Champion Breeding Heifer. The trophy will stay housed at the American Royal throughout the year.

Arrival and Release of Breeding Cattle

An earliest arrival time will be stated for some departments. An earlier arrival may necessitate staying outside the buildings. The management determines arrival and release times in an effort to make the best use of available space and to provide the best possible show for all exhibitors, special groups in attendance and the general public.

- For American Aberdeen, Belted Galloway, Black Hereford, Braunvieh, Gelbvieh, Limousin, Miniature Herefords, Salers, and Watusi the American Royal barns will be available after 1:00 p.m. Thursday, October 10, 2024.

- For Angus, Charolais, Chianina, Hereford, Maine-Anjou, Red Angus, Shorthorn, and Simmental the American Royal barns will be available after 4:00 p.m. Tuesday, October 22nd, 2024.

Exhibitors are expected to keep their livestock on display until the designated time for release unless the Livestock Event Manager grants permission for early release. Failure to comply with this rule can result in forfeiture of premiums. The stated release time should be considered when a decision to enter is made.

If necessary, to allow time for cleanup, exhibitors are expected to remove animals and tack from tie space promptly after release time if asked by the management to do so.

All animals, tack and equipment must be removed from the American Royal barns by 8:00 p.m. Monday, October 14th, 2024 for cattle exhibiting between the dates of October 10th-October 14th, 2024. All animals, tack, and equipment must be removed from the American Royal barns by 11:59 p.m. Sunday, October 27th, 2024 for cattle exhibiting between the dates of October 22-27, 2024. No livestock or equipment may be left on the American Royal grounds after 6:00 p.m., Monday, October 28th, 2024.

Grooming Chutes

Exhibitors may use grooming chutes or cattle safety devices. Space will not be guaranteed for grooming chutes. A grooming chute permit is available for $35.00 per chute. Any exhibitor failing to have a grooming chute permit clearly visible will be subject to having chute removed from grounds. Chutes must be kept with exhibitors' cattle and cannot be placed in aisles, cleanout alleys, or fire lanes. Any exhibitor that does not comply promptly if requested by the management to remove a chute is subject to disciplinary action including forfeiture of premiums.

Tie and Tack Space

Superintendents will assign tie space and tack space as needed upon arrival. The per-head fee is an entry fee not space rental. Due to limited space, ties will be assigned for the actual number of cattle that arrive at the show.

Tie-Outs

Breeding cattle may not be tied-out until 5:30 p.m. Temporary tie-outs are available at no charge on a first-come basis. Because most cattle will be on the grounds at the same time, please be considerate of fellow exhibitors and only use the tie-out space needed. The American Royal does not guarantee tie-out space and is not liable for security, accidents or loss of animals or articles in tie-out area. Cattle tie-outs are temporary panels and, as such, may not be substantial enough for some animals. Exhibitors, who elect to tie-out at night, do so at their own risk and are responsible for the security of their own animals. No tents are allowed in the tie-outs.

Bedding

All cattle ties in the barn and the tie-out area will be bedded with material provided by the American Royal. The charge for bedding is included in the entry fee for all cattle. Additional bedding and feed may be purchased from the Feed Room. Orders must be placed by 4:00 p.m. daily. Terms are cash or credit card. All feed bills MUST be paid in full before orders will be delivered.

Substitution Rule

Substitutions may only be made with the breed entered and are only allowed in Junior Heifers and Open Cattle. Substitutions can be made only in the name of the original exhibitor/recorded owner as listed on the entry form and must be the same sex- bulls for bulls and females for females. Substitutions must be made with the current 2024 American Royal Substitution Form, which can be found on the American Royal website. **Forms submitted without the required signatures and/or credit card number will not be accepted.** The form must be received no later than **September 25th, 2024**. Substitution forms can be found under the Livestock section of the website. No substitutions will be allowed after September 25th, 2024 without the $100.00 late substitution fee and you must alert American Royal Livestock Show management before you arrive on grounds of the animal.

Any substitutions made or attempted to be made in any breeding class through deceit may result in disqualification of all animals and parties involved. Said parties may be subject to subsequent actions by the Executive Committee.

Substitution Fee: Breeding Cattle: $20.00 per head
Breeding Cattle Late Substitution Fee: $100.00 per head

Cattle Sales

Breed sales are under the management of the respective Associations. Sale managers or breed associations are requested to furnish the Livestock Department with a summary of their sales including totals and averages.

All live animals entered in any sale at the American Royal must be properly entered in the respective American Royal show. Owners are responsible for submitting completed entry forms along with required fees. **Sale management must send a complete list of owners/sale animals to the American Royal by September 10th, 2024.**

Health Requirements

Health requirements are located in the General Information section. All livestock entering this show will be subject to examination by a show or State Veterinarian upon arrival or during the show.

Animals with active lesions of ringworm with resulting loss of hair, or multiple warts visible will not be permitted to exhibit. If animals have had ringworm, lesions must be dried and healed with hair growing back in. Any animal, of any species, showing evidence of infectious, contagious, or communicable diseases will be immediately withdrawn from the show, removed from the grounds, or held in quarantine at owner's risk and expense. These animals must remain in the quarantine area while on the grounds. There will be no refund of entry or other fees on animals withdrawn.

Parking and Passes

Entry gates will be supervised. All exhibitors are required to purchase a minimum of one exhibitor badge, if traveling with someone else, it is not necessary to purchase a parking pass. A parking fee of $20.00 per vehicle per entry and an admissions fee of $5.00 per person per entry will be charged at the entry gates if passes are not purchased. See General Information for details on vehicle passes and grounds passes.

Additional Information

Nurse cows will not be permitted.

Only animals entered in the show are allowed on the grounds.

Animals recorded in more than one breed registry may only show in one breed show. Animals must show in the same breed in the open and junior show, if eligible.

Angus Rules

Any animal, upon check-in, which does not have a legible permanent identification mark (eat tattoo marks, freeze-branded marks or hot-branded marks) corresponding to the permanent identification mark on the registration certificate is ineligible to show. Once disqualified due to an incorrect or illegible permanent identification mark, animals cannot be re-identified (tattooed/branded) and rechecked at the show.

Any female shown with a calf at side: the calf must be the cow's most recent natural calf, and the calf must be registered by show day and have proof of registration at check-in.

Only one person at a time shall lead an animal into the show ring.

Exhibitors who participate in shows by the American Angus Association are subject to the Association Rules as found in the Breeders Reference Guide of the Association. These rules are found in Part 2; Association Rules. The rules relating directly with the exhibition of Angus cattle are Part 2: Association Rules; Rule 800 Series; including Rule 800-810. These rules can be found at www.angus.org.

Altering the conformation and/or appearance of an animal for exhibition is prohibited. This includes the use of chin straps, covering of white skin, false tail heads (or use of any false hair), with the exception of false tail switches. The use of graphic, powders, hemp or other similar substances used externally are also prohibited. Other prohibited products include those internally such as steroid, illegal, or unlicensed pharmaceuticals or artificial filling. Any animal found to be in violation will be barred from showing.

At any show by the American Angus Association no exhibitors, individuals assisting exhibitors or member owners at such show shall be allowed to use any coloring agents, on any animal exhibited. The Association may adopt and implement various tests designed to monitor this prohibition, including but not limited to a "white towel" or "white glove" test. No aerosol cans or other pressurized containers will be allowed in designated line up areas.

All animals exhibited are subject to DNA marker or blood type test to verify accuracy of parentage as covered under the Association Rules and for other testing as required by the individual show.

Authorized representatives of the Association have the authority to enforce the rules set forth herein as wall as in the Association Rules, including the barring of a registered animal from a livestock sow at which it is to be shown, if there are reasonable grounds to believe a violation has occurred.

American Angus Association Show Classification

Only registered Angus cattle that meet the age requirements listed within this classification are eligible to receive premium participation and be counted in the total number of head shown. Champion and Reserve Champion placings are not counted in the number of head shown.

The individual classes will be made up and divided after the cattle are checked in at the show. They will be judged from the youngest class to the oldest class with each class made up of no more than fifteen (15) head. Any classes listed that exceed 15 head per class should be broken into smaller classes by dividing the class as evenly as possible without splitting animals with the same birth date. If there are more than 30 head in a division should be split in to Division 1, 2, etc. Class breaks will be at the discretion of the American Angus Association staff in attendance.

Females

Any female that qualifies for female classes in the Association's standard classifications are not eligible to show in the cow-calf classes. However, the calf at side of the female is eligible to show in its respective class providing individual entry has been made.

An animal is eligible to enter or compete in an open Charolais breeding class if registered in country of origin outside the United States and is eligible for purebred registry in the AICA Herdbook.

Animals registered in the AICA Colored Division Registry (QF and QM initialed registration numbers) must meet the qualifications of the AICA rules and regulations.

All animals to be eligible may be approved by a sifting committee designated by the AICA. Stall space will not be provided for any Charolais cattle that have not been accepted by the sifting committee.

All animals are subject to a medical examination in order to determine age, and each animal will be present in the show ring in its natural conformation without alteration or modification. Use of artificial tailheads is not permitted.

Any animal not having a legible tattoo or firebrand number is ineligible and will be barred from showing.

All females 20 months and older exhibited at AICA sanctioned shows must be accompanied by a certificate of pregnancy from a licensed veterinarian or have produced fertile eggs as certified in a written statement by a licensed veterinarian or embryologist or have a calf at side.

AICA requires that all animals be shown with a halter and suggest that all bulls be shown with a nose lead.

Note: 75% females and bulls that qualify to be registered as a Balancer or Gelbvieh can be entered and shown in only one division and may NOT be switched after entry deadline.

Gelbvieh/Balancer Rules

1. American Royal entry forms properly filled out and accompanied by the appropriate fees must be submitted online by September 10th, 2024.

2. The Royal will keep $85.00 per head entry fee and the balance will be used for premiums.

6. All animals must be properly tattooed, including herd prefix, and will be inspected at the show. If that tattoo is illegible or does not correspond to registration certificate, the animal is ineligible to show or may be re-tattooed by the exhibitor and re-checked at the end of processing for a fee of $100, payable at the time. Harry Darby Award – Armour Cup

The Armour Cup was the award for the Grand Champion Bull at the 1899 National Hereford Show which was the forerunner of the American Royal. The cup was lost for many years, but was found and purchased by the late Senator Harr Darby who gifted it to the American Royal Association to be used as a trophy for the Harry Darby Award to the exhibitor of the Grand Champion Hereford Bull. It is on permanent display in the American Hereford Association's Hereford Heritage Hall with the name of each year's winner engraved on a plate attached to the base of which the cup is displayed.
